State of Maryland

Application for Voter Registration Data

Qualifications: To apply for a voter registration list, the applicant must be a registered voter in Maryland and must sign a statement, under penalty of perjury, that the list is not intended to be used for purposes of commercial solicitation or any other purpose not related to the electoral process. (Election Law Article, §3-506, *Annotated Code of Maryland* and COMAR 33.03.02.03A and 33.03.02.04) The applicant's registration will be verified before processing of the request.

Application Deadline: Before any election, neither the State Administrator nor any election director may respond to an application for a voter registration list unless the application was filed on or before the registration deadline. Applications received after that date shall be returned. (COMAR 33.03.02.05B)

Delivery: Requests will be turned around within 10 working days from the time SBE receives the application. Output may be picked up from the State Board office, mailed to the applicant, or provided via FTP. To ensure delivery, provide contact information as indicated on the application.

Cost:

Statewide Lists: \$125.00, County Lists: \$75.00 each, District Lists: \$75.00 each

Set-Up fee: \$3.00 (waived if delivered via FTP)

Payment: Payment-in-full must accompany this application. Payment can be in the form of credit card, certified check, personal or campaign check or money order. Make checks payable to: Maryland State Board of Elections. All returned checks will be assessed a fee of \$30.00.

File Format: All files except the Walking List are tab separated text files with no text-delimeter. This format is easily imported into Microsoft products; however, statewide data files are (and some district files may be) too large to read in Excel or Access.

Disclaimer: The Maryland State Board of Elections and local boards of elections do not guarantee that the data requested will be compatible with all software programs. The applicant will utilize his/her own software to import this data to his/her database. Technical support and special data formats are not provided.

File Details:

<u>Walking List:</u> the walking list is a PDF (uneditable) file generated by precinct and sorted by street address. Under each street address is listed all the voters who live in that address and their political party. It is designed for walking up and down the streets, with even addresses in the left column and odd on the right. It is not available Statewide; however, the data is in the Registered Voter List.

<u>Absentee Applicants List:</u> Text file containing a list of voters with absentee ballot **requests** for the given election. It includes voter id, name, residential address, mailing address, absentee ballot address, precinct, district information, state and county registration dates, party, absentee type, absentee request status, and county. Actual absentee VOTERS are on voter history lists.

<u>Early Voting List:</u> Text file listing voters who voted at an early voting location for a given election. It includes voter ID, name, early voting location, date of voting, party, residential address (in one column), mailing address (in one column), ballot style, precinct, and gender. This information is already on the voter history lists.

Registered Voters List: Text file containing a list of registered voters with name, party, gender, residential address, mailing address, status (active or inactive), state and county registration dates, split and precinct, congressional district, legislative district, councilmanic district, ward, municipal district, commissioner district and county.

<u>Voting History Included in Registered Voter List:</u> Text file identical to the registered voter list **EXCEPT**: some columns are in a different order, it does not have a column for county or commissioner district, and there is a column for each election selected. This list is easy to view when opened in a spreadsheet format, but it gives no data on voting method or date. **Statewide lists are limited to 5 elections.**

<u>Voting History as Separate File from Registered Voter List:</u> The Voting History file contains the following columns: Voter Id, Election Date, Election Description, Election Type, Party. Election Code, Voting Method, Date of Voting, Precinct, Early Voting Location, Jurisdiction Code, County Name. To match each record in this file to a registered voter, use the Voter ID column in the Registered Voter List. This file is for technically savvy individuals.
