Mr. Johnson – sorry for the brief delay but I wanted my IT folks to go back and confirm my understanding. The 15 jurisdictions you listed do not have any records meeting the criteria for the report. This report shows individuals that were cancelled due to self-reported non-citizen status and failed to complete an affirmation of citizenship in the allotted time frame and continue to be in cancelled status. If an individual was previously cancelled and then subsequently affirmed citizenship and was re-registered, they would no longer appear on this report because they would now be on active status. Those individuals would show on the earlier custom report you have. Let us know if you have any additional questions. Thanks.

Edgardo Cortés

Mr. Cortes,

Thank you for the report. Upon review, there appears to be 15 jurisdictions missing. Does this mean those reports do not exist (i.e., no cancelations in the relevant time period) or were they inadvertently omitted?

The jurisdictions are:

Buchanan County
Charlotte County
Grayson County
Greensville County
Lee County
Lunenburg County
Madison County
Mathews County
Southampton County
Sussex County
Buena Vista City
Emporia City
Lexington City
